Strathmore to Help In Trail Development

Blazing the Yellow Trail

About ten couples attended the entertainment and dance at the Community Hall last Friday. They were all highly delighted with the programme, and the music provided.

D. McPherson, of Edmonton, was in the district for a few days lately looking after business interests.

Miss Loxam, who has been employed in this district for the past seven months, has left for her home in Calgary.

Mr. and Mrs. A. McNaughton and family, late of Moose Jaw, Sask., were visiting here, and Mr. and Mrs. McLean, of C.P.R. Headquarters, Gleichen. Mr. McNaughton is on his way to the coast, where he intends going into the grocery business.

Miss Lemon, our energetic teacher, intends having her usual Christmas entertainment and dance on December 19th, that date being advisable so as not to conflict with other school entertainments.

George Collins bought a Ford sedan last week, and Tom Envoileen a Ford coupe.

A son was born to Mr. and Mrs. John Haines on the 11th of this month at Pandosy, Alta.

The C.P.R. ditcher is busy getting crop reports. Fred being busy a stronger, we will have to get him the local paper or a radio.

Grain Shipments

Over C. P. R.

Following are the figures of grain shipments made from stations on the Canadian Pacific Railway in this district between August 1 and November 19 of this year. These are round figures and are supplied through the courtesy of the manager at Medicine Hat. The shipping point of Hamlet, between Nightingale and Tudor, is omitted from the total, which is 2,367,000 bushels. Last week we gave figures showing that 52% of grain shipped from the C.P.R. and National stations in the district. It will be noted that Irricana and Belseker ship on both railways, the former having shipped 43 cars over the C.N.R. and the latter 49. While grain is shipped in bags, sacks and 400 bushel bins, the total for the district should approximate 6,000,000 bushels. Carseland leads in the total amount of grain shipped to date. Standard being a close second.

Threshing Going Ahead

Over C. P. R.

The good weather of the past week has permitted threshing to be resumed, and a number of rigs are winding up their runs.

Price of grain is showing some fluctuation, but a high level is being maintained.

C.P.R. STATION ROBBERY

Late Tuesday evening or early Wednesday, the C.P.R. station at Strathmore was broken into. \$200 in cash was taken, several C.G.s., and a sufficient amount of clothing, including the station agent's ticket case. The ticket case was ransacked, but was found to be intact. A peculiar thing was that two bottles of whisky shipped from the train to a local customer were not taken.

It is said that a couple of men were arrested in Regina on suspicion of being connected with the robbery.

The supper and concert held under the auspices of the Ladies Aid on Wednesday last was a decided success, both socially and financially. School Column

Under the auspices of Orange Valley S. D., a very enjoyable whist drive took place at the home of Mr. and Mrs. H. Riddon on Wednesday, November 19, when the money raised was turned over to the Red Cross Society. The amount of \$75.00 was raised from the Orange Valley branch.

The secretary of the School Fair Association has already received three special prizes for next year's fair. As the association is in the committee to have a prize list in the hands of the teachers early in the new year, it would be much appreciated if anyone wishing to give special prizes, would notify the secretary as soon as possible.

All prizes won at the School Fair have now been paid, and a financial statement will be forthcoming in the near future.

The regular monthly meeting of the Bow Valley Local of the A.T.A. was held in the Carseland School House on November 19. The meeting was very gratifying. Before proceeding to the business of the meeting supper was served. Carseland is certainly fortunate in the hospitality and good fellowship of their staff. After the regular report of the work done there was an open discussion on the best methods of dealing with the citizenship course in the new curriculum. The next meeting will be held on Friday, January 23rd, in Strathmore.

Plans are being laid to stage a spelling tournament and possibly an oratorical contest between the schools of the district. Watch this column for further announcements.

Mrs. Oxley was away for three days last week through sickness. We are glad to have her back again.

Held in the classroom—Teacher, "What would you do if someone had taken poison?" Pupil (with great confidence), "Give him an epidemic."

One of the members of the Bow Valley Local of the Alberta Teachers Alliance has recently acquired a McLaughlin car, and another has acquired a Buick. A third is quite recently a Ford. The only recently married attended the Carseland meeting last Friday, while the one with the car did not. Query: Which has the more right to keep one home, a little wife or a big car?

The Akenfield and Harwood School districts have decided to unite in joint endeavor for the purpose of having a concert and Xmas tree at Akenfield school.

The Akenfield School dance held recently proved to be a huge success, much to the delight of Santa.

Canada's War Blunders

— o —

Sir Arthur Currie, in charge of the Canadian Corps in the Great War, is reported to have said that 100,000 men were sent from Canada to the battle field, who were no use in the field, also that expert advice regarding the Ross rifle and the Oliver equipment was ignored. Joseph Archibald, member of the House of Commons, says he intends to ask for an inquiry into the truth of the statements made.

There is no doubt as to the truth of the statements made by Sir Arthur. Canada is credited with having enlisted 500,000 men, and only slightly over 200,000 of these were actually in France.

Canada's force in the firing line was never stronger than four divisions, or from 60,000 to 80,000 men. The Ross rifles, though condemned by the French in the field early in 1916, were supplied to the Canadian Corps. The Oliver equipment was never worn in France if at all. If worn, the men would have been strangled by it. Practically no part of the outfit supplied the troops in Canada was made in France. There are many other points such as the waste of time in training men in Canada when the education received there was of no use to them. The keeping of the Fifth Division in England for year after year forces us to wonder if there were no real place casualties, the commissioners in Canada of numerous useless officers, and sending them back to Canada after a holiday in England. There are many other points, but these would do to give an idea. Our opinion is that the military system in Canada, instead of being any value in the war, was a positive hindrance.

One of the biggest faults of all was the financing of the war. Instead of taxing for the war which it was intended to fight, the Dominion Government is being paid back now with interest to people, who, by reason of purchases of Victory Bonds, are relieved of Dominion taxation. They are the ones who have fought. The men who did the actual fighting have certainly not profited.

Industry Has Outstripped Agriculture as Wealth Producer

— o —

Under the above heading the Financial Post, Toronto, states that manufacturers accounted for \$1,558,544,159 in 1920. While agriculture was second with \$1,519,632,776, in 1920. The Post says:

"The statistics revealed the lead of industry as a source of income for the people of Canada, and made definite the oft-repeated estimate that Canada is no longer essentially an agricultural country."

Bear in mind makes the heading interesting in that when the figures are examined it is found that the industries which make up the greater amount of the total are those which are dependent on agriculture and forestry, such as milling, with \$167,000,000 worth of products, and \$100,000,000 in meat and poultry with \$102,000,000. Third is meat packing, \$142,000,000, fourth sawmill operations, \$114,000,000, and fifth butter and cheesemaking. Other big ones are electric power, house building, tobacco, and so forth.

The figures of Canada are not protected by tariff walls. The agricultural implement industry, which from the noise made on its behalf when the tariff was being reduced, would have been thought to be Canada's mainstay, only amounted to \$36,000,000, or six millions more than the primary products.

The figures seem to bear out the arguments made by Western Canada that the industries which should receive encouragement are those

native to the country. If the tariff was taken off, goods from abroad could come in at a low rate, but there is no doubt that a great stimulus would be given to export of our native products to the Mother Country, and any reductions made in the output of industries that cannot meet open competition would bring about a general improvement of the industries which provide us in Western Canada with our means of existence. Also, it would greatly increase the business of the Western trade route via Vancouver and the Panama Canal.

There is no doubt as to the truth of the statements made by Sir Arthur. Canada is credited with having enlisted 500,000 men, and only slightly over 200,000 of these were actually in France.

Editor, Stratmore Standard,
Dear Sir:

After a prolonged absence we have, at last taken up our abode again on the banks of the lake.

Since I was here last I have seen much of the world; but I am very glad to be back home again. I spent last winter in San Rafael, about sixty miles south and a little west of San Francisco.

No frost there, much less any snow, but instead a lot of chilly, dull weather, and lots of fog. We have had some rain on the share in the snow. We left San Rafael I generally feel as if I had not only a chain on each leg, but a load on my back as well, and besides, it was either tolling up hill on low or driving my toe carks in to keep from slipping.

Once, in January, I stood in front of a store today and felt the sun on my back; but as though as though I were back in Alberta.

It is very much that is beautiful in California, and prosperous people there; but there is also much poverty and unemployment, and they would have to offer me big inducements to go live there.

I have been successful here, and could show by figures that during the few years he had been there, both the cow and the hen that could not pay their board and expenses was sold at once and gone along with the rest of the herd. I have shown that dairy cows can be profitably managed on here. I have by no means been in a position to demonstrate all I know. So with our economic group government, and our U.P.A. and U.P.W.A. organization, I feel that politically and economically, Alberta comes nearer filling the bill with me than any other place I have any real knowledge of.

Therefore, I am in favor of wages, DANIEL F. BOBBYRAY

Another stage in Alberta's progress was a corn growing country was marked last week with the holding of a corn show at Minto. The exhibition, organized by the U.P.A. and U.P.W.A. organization, I feel that politically and economically, Alberta comes nearer filling the bill with me than any other place I have any real knowledge of.

Therefore, I am in favor of wages,

FUNERAL OF MRS. A. D. CRUMLEY

The death of Mrs. A. D. Crumley took place in Calgary General Hospital on Saturday, November 8th.

The deceased lady was a highly educated and university educated resident of Carseland, where she interested herself in every work for the good of the town, and her passing away cast a gloom over the whole district.

The end was not wholly unexpected, but it became apparent some few weeks ago that Mrs. Crumley could not recover and she passed away peacefully after a lingering illness.

At the funeral service, held in Shaver's Chapel, nearly one hundred and twenty people from Carseland and district attended, and the great number of floral tributes were silent tokens of the esteem in which the deceased lady was held.

The Rev. T. Lounsbury conducted the burial service, and the Order of the Eastern Star concluded with a short ceremony over their departed sister.

The late Mrs. Crumley leaves her husband and one child, Gladys, to meet her loss, and the deepest sympathy is felt for them in their sorrow.

We have a letter from Mrs. Ellen

Way, recently went down to New
York State, in which she tells us that
the people in Alberta are lucky. She
was November 19th than ever she saw in
the bars. It was 17 above zero at eight
o'clock. Eggs cost a dollar a dozen,
she said. At 10 o'clock Monday noon
she paid a pound. Stewards were
said \$12 a day, but it takes them all
that to live. "I say that people who
live in the West don't realize they are
the lucky ones, and should be happy
and contented."

Alexander Battell, C.P.R. worker
was awarded \$7,550 damages in his
action against the company for injuries
received at Irricana in the supreme
court of Alberta. The company
assumed the liability and is to
allow the jury to fix a reasonable amount.

The weather has made good
progress to be made on the big garage
being erected by Messrs White

completed.

The great recreation at the bidding auction
on Saturday, Nov. 24th has been
brought around the district since the
past three weeks, and has still a number
of sales to hold, details of which are
given in our advertising columns.

The Strathmore Pharmacy One

Baintree Sidelights

One of the section boys recently withdrew his savings from the bank, and for greater safety placed the wad under his pillow. When he gets another roll he's going to put it there any more. Another guy found the pillow of treasure, and left Bill lamenting on the cruelty of fate. Three hundred plunks. Oh, boy! Bill should have loaned it to us.

We defy Hugos of Alberta, to come round his mouthful fastness and tell a story round on the Scotch. Come on Hugos—we'll come up and make you bug.

A thoughtful friend recently sent us a copy of a country paper dealing with incidents of the recent election. Some very amusing things happened. In one of the rural districts an enthusiastic Communist was singing: "The Red Flag, the Red Flag, we'll march on, we'll march on, we'll march on along and blow a number of holes in his pants with a shotgun."

A candidate who was addressing a crowd, was accompanied by his wife, who was seated on the platform. In support of labour, he exception to the right to speak, and threw an egg. Unfortunately for the lady he wasn't a good pitcher, and she received the hot fruit right in the face. A fight ensued, and a guy, who undertook to separate the combatants, took a bullet in the arm. The old dad had changed some since we last saw it. The people over there used to be a sober minded bunch, except when they got drunk on Saturday night. Now-a-days, a dozen seem to turn the thing about crazy. All the same, we expect them to make good, as they have done in the past. The structure of home and state in the old land is built on a foundation that has stood the storm, and no one can doubt that it will stand in the future, whether it be Liberal, Conservative, or Labour, the sons of the men who built it will see that its future is safe-guarded. Communism, Socialism, and

Bolshevism, which preaches or practises moderation in all things, will always be tolerated by the breed whose ideas are based on the liberty of speech:

A couple of Jews met the other day and the following conversation was overheard: key said the first: "That was an awful fire Roseberg had last week." "Yes," returned Moses, "Rose is a nice fellow, and he sure deserved it."

When we get a big crop next year, we are going to establish a home for the old. Don't you think that's a good idea? We may be performed in a manner somebody dropped another crooked in front of our castle last week, and as they can't live on coal, tin cans, or green feed, we are at a loss to know what to do with them. Cat specialists kindly advise.

your wives see this—but how would you like to change places with him just a few minutes? Don't aholler "Can a duck swim?" at once!

You see, this fellow was a judge at a recent beauty contest in New York City. His was the job of picking the winner, not only for beauty, but also

for perfect—or—measurements. Hence the excuse for his assistance in the take measurements.

And, at the time this picture was taken, he wasn't thinking of answering any want ads for "Help Wanted." As we said above—"Oh! For the life of a Beauty Expert!"

During the past week nobody died in our fair city, and the bodies were buried in our little world, none of them the district for good, and, as far as we can learn, nobody came here with the intention of settling in our midst. So to fill up space we are going to include a little skit written one evening when we should have been milking the cows. You'll say that anyway, so we thought wed save you the trouble.

MUSINGS OF A HAY SEED*

Come, ladies and gents, don't say life's but a dream.

It's just what you make it.—Sour milk or sweet cream.

So turn on the gas, and keep straight ahead.

You can't run the car when the engine is dead.

If you dare to make fun at misfortune's sad song.

You will help some good pal chirp up and be gay.

If you can grin through your troubles with eyes on a star;

You've got this big world in your dinky Ford car.

Don't ever say "quit," but be glad you ain't dead.

Life isn't a cinch, but someone once said:

"The clouds will all melt, as the new day is born."

So buck right along, and keep tooting your horn.

Before we throw the last cat out, let us ask you a little question, "Is the guy living that can put John Dempsey, Esq., to sleep?" No answer from the wilderness. All right fellers, here she goes. So long.

A crop map prepared by the Canadian Pacific Railway, received at the Department of Agriculture at Edmonton, shows that the 32 million bushels of the P. R. in the West, which shipped more than a million bushels of wheat in 1923-24 season, 20 were in Alberta. Two stations on the system in the West shipped more than two million bushels, one of them being in Alberta. This was Vulcan, south of Calgary.
